

IT Architecture Services

Enterprise Architecture

SERVICES

- Database Management Services
- Business Intelligence & Data Warehousing
- IT Architecture Services
- IT Training Services
- Application Development & Maintenance Services
- IT Project Management
- IT Product Engineering
- Business Process Management

Organizations today require a unified, synchronized approach based on a formal IT strategy that is in line with the organization's mission, stated business goals and key processes. This calls for constructing the enterprise frameworks, applications and solutions based on a framework that is adaptive to any changes – flexible, scalable and inter-operable; while ensuring that the existing IT infrastructure is rationalized to deliver maximum value.

The InfiOp consultants are well conversant with various Industry standard Frameworks including The Open Group Architecture Framework (TOGAF).

Enterprise Architecture Tools

Based on an Enterprise Repository that encompasses both business and IT architecture views, InfiOp provides a simple and powerful Enterprise Architecture solution for driving change within your organization by:

- Reusing the description of your business processes, IT systems architecture, data, and all enterprise repository information.
- Increasing efficiency through best practices management within the organization.
- Reducing risks, through a global operational risk assessment and mitigation plan.

The following steps may be followed based upon client requirements.

- Workshop to identify and represent Enterprise Architecture requirement for business stakeholders
- Identification of sample systems for study
- Information capture using InfiOp's Enterprise Architecture assessment matrix
- Applications study based on InfiOp's Enterprise Architecture methodology
- Identification of Business Case parameters for Enterprise Architecture through IT systems inventory

Database Management Services

Deliverables & Activities

The Deliverables of this Service Package are:

- Definition and outline of Enterprise Architecture Strategic Objectives
- Report on business case parameters for Enterprise Architecture
- IT framework review report
- Enterprise Architecture realization roadmap
